NEWPORT,
BY CRANSTON & NORMAN,
127 THAMES STREET.

THURSDAY MORNING SEP. 11, 1851.

☞Quite a war is being waged between some of the Druggists in town, as to who keeps the original and genuine Farina Cologne. As this is a *very nice* question, and one in which our citizens feel a deep and abiding interest, we propose, to the respective parties, to submit the question, and all matters in dispute in regard to it, to the final award and determination of the Town Council and their accomplished Police. As the latter are to be Masters of Ceremonies at the Hotels next summer, and will consequently have occasion to use large quantities of the best perfumeries, they will undoubtedly make themselves proficients in this luxury, during the winter. The Inspector of Nuisances will be an important personage in the arbitration, as, from the nature of his duties, it is reasonably to be presumed that his olfactory organs are very sensitive.

☞The steamer Perry will make excursions to-day and to-morrow to Providence, to enable our citizens to visit the celebrated Seven Mile Mirror now on exhibition in that city; this is probably the last opportunity which they will have to witness this great work. Fare for the excursion, including admission to the Mirror, only 50 cents. Tickets good for to-day and to-morrow.

☞The splendid steamer Canonicus, Capt. Childs, will make a grand excursion, this morning, to New London, New Haven and Bridgeport. She will leave here about half past 10 o'clock, and will return to-morrow afternoon. This will be the finest excursion of the season, and will afford all who go, an opportunity to visit New Haven, the beautiful city of Elms, and also Iranistan, the famous Palace residence of P. T. Barnum. See advertisement, in another column.

☞The Illustrated American is the title of a paper which was started in New York, by T. W. Strong, about three months ago. It is very neatly printed and contains a large and varied amount of useful and interesting matter. The illustrations are exquisite, and in design and finish are far superior to those of any other paper in the country. It is for sale at Tilley's Depot, opposite the Post Office.

Mr. Phillipe lately made an experiment with his fire annihilator at Paris. A wooden house had been built in the centre of this large ground, and it had been filled with tar shavings, and combustibles of all sorts. As soon as a match had been applied to these inflammable matters, the whole was in a blaze; and instantly Mr. Philips, having opened his apparatus, which looks like a big lantern, a sort of white gas evaporated, which, directed upon the blaze, put it down as if by enchantment. Thousands of plaudits were bestowed upon the inventor, who has decidedly won much fame, and deserves to be deemed one of the benefactors of humanity.

☞Mr. Scherb will by the urgent request of those who heard it and of some who did not, repeat, this evening, at 8 o'clock, in the Mill street Church, his lecture on the German Poet, Lessing, and particularly his famous Drama "Nathan, the Wise." We regretted, while listening to it, that there should not be a larger audience to hear so noble a presentation of one so deserving of an introduction to American minds and hearts as the great Lessing, the true, but misunderstood, successor of Luther in the work of liberating the German and the human mind.

The scenes from the play, introducing all the chief characters, were delivered with remarkable grace and spirit and dramatic skill, and our only regret was that we could not hear the whole of so noble a production. What was given, however, was quite complete in itself.—Admission 25 cents.

Do unto others as you would have them do unto you.

MR. EDITOR:—

A few months since, the town appointed a committee, two in each ward, to make a new valuation of the real Estate for taxation; one of said ward committee owns a lot of land at the north corner of Dixon street, containing about two acres; and in the vicinity of the most valuable locations, and on the highest side of the street. (East side) which they estimated for taxation at one thousand dollars. Their neighbor owns about two and a half acres of land, on the lower side of the same street, and very nearly opposite, if not in part directly opposite, which has been taxed for one thousand five hundred dollars, the last year; this year, one thousand dollars has been added to it, causing it to pay a tax for two thousand five hundred dollars. Will this gentleman sell his land for the estimation, or fifty per cent. advance; or will he give the amount he estimates his neighbor's at?

Influence of the Sabbath on Domestic Happiness.

1. As ignorance and mental debasement are sources of many and painful evils in the social circle, the Sabbath aids greatly in removing them, by its happy influence in promoting the cause of education, and leading to the estimation and attainment of the various mental accomplishments.

2. Most fruitful sources of domestic unhappiness are found in the various modes in which parental authority and power is abused, so that ruinous laxness of indulgence on the one hand, or stern and oppressive severity on the other, exert their respective hurtful influence; but the Sabbath and its ministrations shed such light on parental duty and responsibility, and point out the right path so clearly, that these evils are thereby greatly mitigated.

3. A vast amount of the unhappiness of families arises from the unrestrained indulgence, on the part of parents or children, of their various wicked passions, as envy, anger, jealousy, selfishness, &c.; but the hallowed influences of the Sabbath all tend to crush these evil passions, and dry up these fountains of woe.

4. The sorrows of the family circle have been greatly multiplied by the rebellion and stubborn perversity of children. The Sabbath and its ministrations bring to bear upon the young mind for the purpose of correcting perversity, the rebuking authority of God, and these countless soul-subduing influences which abound in the sacred scriptures. In how few, comparatively, among the families loving and honoring the Sabbath, is found the son or the daughter "that causeth shame."

5. Unspeakable woe has been introduced into the family circle by the success which has attended the temptations which the wicked have used to lead astray the son or the daughter; but how strong a barrier to the inroads of these temptations is the sanctified Sabbath of the Lord! It is a powerful guardian of youthful minds against the countless snares that are laid for them.

6. The Sabbath greatly aids in promoting domestic happiness, in that its ministrations cherish all those graces and virtues which unite and harmonize all the members of the family, and cause them, by principle and conscience, to seek the highest good of each other. Where, in our world, are homes and firesides the abodes of so much social and domestic enjoyment as where the hallowed Sabbath is welcomed with gladness, and kept according to the commandment.—*Boston Traveller.*

☞The Massachusetts Whig Convention at Springfield, yesterday, nominated Robert C. Winthrop for Governor, and George Grennell, for Lieutenant Governor.

The Warren Association met at the Second Baptist Church, yesterday morning. The introductory was preached by Rev. J. N. Granger, of Providence. The usual collection was taken up for the benefit of the widows and orphans of deceased ministers. The organization of the body took place by the choice of the Rev. Dr. Choules as Moderator and Rev. Mr. Fyfe, of Warren, as Clerk, with Hugh H. Brown, of Providence and Asa M. Gammel of Warren, as Assistant Clerks. The Letters from the Churches occupied the afternoon, and in the evening the Sabbath School cause occupied the body; when interesting addresses were delivered by Mess. Adlam, Graves, Davis, Guild and the Rev. Dr. Babcock, agent of the American Sunday School Society.—The Services to-day will be resumed at 9 o'clock. Rev. Mr. Fyfe, of Warren, preaches this evening at 7 o'clock, and this interesting preacher will no doubt, have a large audience.

A COINCIDENCE.—It may be regarded as a somewhat singular coincidence that the last causes tried before the late Judges Story and Woodbury, severally, were the famous cases of Samuel Colt vs. parties for infringement of patent on his celebrated revolvers.

☞The Circuit and District Courts of the U. S., at Philadelphia, adjourned on Monday, in respect to the memory of the late Hon. Levi Woodbury.

A CURIOUS CASE.—A boy, about seventeen years of age, a cripple, and not capable of earning a living by ordinary labor, was landed in this city yesterday, in a destitute condition. He has this remarkable faculty, that he can with great rapidity solve almost any question put to him in the multiplication of numbers, without the aid of figures. State to him your age and he will give you the number of days, and even hours, which you have lived. His mind is, withal, disordered, and if perplexed, is subject to fits. He was born in Morgan county, Ky., and is seemingly an object of real charity. His name is Marady Helland.—*St. Louis Repub., 28th ult.*

BY TELEGRAPH.

BOSTON, Sept. 9.

A letter received from Manchester, N. H., this morning states that the son of the Hon. Dan'l Webster is very dangerously sick.

The Secretary of State arrived in the city to-day, from Franklin, in improved health.

WASHINGTON, Sept. 9.

The republic of this morning publishes a despatch from Commander Platt, of the U. S. ship of-war Albany, lying at Havana, detailing an interview which he had with the prisoners shortly after their arrest and confinement in the prisons of Cuba.

Capt. Platt states that he told them before receiving any statement from them, that they were in the full possession of the Spanish Government, and that nothing could be done for them.

He would, however, forward their statement to his Government.

Capt. James A. Kelly acted as speaker for the prisoners in the presence of the others.

The statement made is very similar to that of D. Francisco A. Laine, and represents that they had five battles, but with what loss to their number it was impossible to tell.

They brought with them 80,000 cartridges.

Soon after their arrival they found that they had been deceived and became anxious to return to their homes.

They had been informed before sailing that fourteen towns were in possession of the "patriots."

The country people generally fled at their approach, and not one joined them.

Worn out with hunger and fatigue, they threw away their arms and ammunition one week before their capture.

Capt. Kelly stated that he had been written to and prevailed upon by Mr. Sigur, of the New Orleans Delta, to join the expedition, as had also many others.

He further stated that when the prisoners were told of the capture of Lopez, a cry of joy and exultation burst from them.

The whole number of prisoners is one hundred and thirty-five.

Cols. Scott and Haynes, of Tennessee, and another of the leaders, are still believed to be in the mountains.

The Republic says that on the receipt of these despatches, copies were sent by the President to the Spanish Minister to further enforce the appeal already made to deal mercifully with the prisoners, in view of the fact that they had been so grossly deceived.

FRANKFORD, Ky., Sept. 9

The wife of Hon. J. J. Crittenden, U. S. Attorney General, died yesterday at her residence, near this place.

JACKSON, Miss., Sept. 8.

Gen. Quitman has withdrawn himself as a candidate for Governor of this state.

THE LATE GENERAL LOPEZ.—Narciso [illegible]ly at Havana, was born of wealthy parents in Venezuela, in 1799. He was the only son of his parents that grew to manhood, though he had a number of sisters. His father had a commercial house in Caracas, a branch of which at Valencia, in the interior, was placed under the charge of Narciso at an early age. During the troubles of 1814 young Lopez sided with the popular party, but afterwards enlisted in the Spanish army, when fortune turned in its favor, and at the end of the civil war he was made a Colonel when only twenty-three years of age.

After the Spanish army evacuated Venezuela, Lopez went to Cuba where he remained and established himself in life, soon making himself conspicuous by his advocacy of liberal principles. During the first Carlist troubles he chanced to be in Madrid on private business.—Having joined the royalist party he was made aid-de-camp to the commander-in-chief, Gen. Valdez, and received several military decorations. He was honored with several important offices by the Queen, and finally was made Governor of Madrid. Afterwards, as Senator from Seville, he is said to have made the condition of Cuba his especial study and the expulsion of the Cuban deputies from the Cortes induced him to resign his offices and return to the Island.—There he held several posts under the Captain General Valdez. Finally he undertook the re-working of an abandoned Copper mine in the Central Department, where he is said to have employed his time in instilling liberal principles into the minds of the populace.

In 1849, when he thought every thing was ripe for a revolution he came to the United States and got up the immature and worse than useless attempt at an invasion, known as the Round Island Expedition. In May, 1850, the famous invasion and sudden evacuation of Cardenas took place. In August, 1851, he again landed in Cuba at Bahai Honda. His followers were speedily destroyed or captured and he himself, a fugitive among the mountains, was taken on the 27th of August. On the 1st of September, 1851, he suffered the ignominious death of the Garrotte, at Havana.—These are the principal events of a life, remarkable for its inconsistencies.

☞A despatch from Washington says: "There is no intention of removing Mr. Owen, Consul at Havana, unless, after a full investigation, it should be demanded—he having acted consistently with the President's proclamation."

THOMAS MOORE.—The decease of this celebrated poet may be daily expected. The last accounts state that 'there is no improvement in his health, and as in the case of Southey, his mind is beyond the repair of medicine or of time.' He has for many years resided at Sloperton Cottage, near Chippenham, in Wiltshire.

UNITED STATES DISTRICT COURT.—The September term of this Court was opened this morning by Judge PITMAN, of Rhode Island, and immediately after empannelling the Grand Jury, Hon. GEORGE LUNT, U. S. District Attorney, arose, and after brilliantly alluding to the recent death of Judge LEVI WOODBURY, in a feeling manner, moved that as a mark of respect for the lamented deceased, that the Court adjourn to such time as His Honor should deem proper.

☞In reply to this motion, Judge PITMAN made the following remarks:

"The sad event which has so suddenly come upon us has deprived us of a learned and able Judge, whose patience and strong desire to discharge faithfully, the arduous duties of his station caused him to forget what he owed to himself and family in the care of his health, and has no doubt hastened the event which we deplore.

At an early age Judge Woodbury was appointed a Judge of the Supreme Court of New Hampshire, and though the youngest was considered the most learned on the Bench. This station he left in a few years for the more powerful attractions of political life. The eminence he has attained as a Judge may cause some to regret that his whole life had not been devoted to judicial duty.

Having known him at an early period of his judicial life, and witnessed his ability, it was with much gratification that I welcomed him to the station he so lately filled, upon the death of his lamented predecessor.

But how soon, alas! has he been removed in the midst of his usefulness, and all the hopes of his friends, and happiness of his family extinguished in the grave.

How forcibly are we reminded

"What shadows we are, and what shadows we pursue!"

May "the living lay it to heart."—Whilst we condole with a most afflicted family, and lament that so much learning, talent and usefulness, has been laid low in the dust, may the lessons of heavenly wisdom teach us "so to number our days" that we may have the promise of the life which now is, and of that which is to come.

On the motion of the District Attorney, the Court will now adjourn until to-morrow at 10 o'clock."—*Boston Mail.*

"He that giveth to the poor, lendeth to the Lord," whispered Deacon Grims, as he handed the contribution-box to a well-known Wall-street note-shaver. "That may be," said the money-changer, "but he don't get two per cent per month for his money."

MARRIED.

In Pawtucket, 9th inst., by Rev. Mr. Lincoln, Mr. Jesse Cudworth, Jr., and Miss Mary Elizabeth Carpenter, all of that place.

DIED.

In Providence, 9th inst., Benjamin Granger, son of Charles E. and Rebecca C. Tillinghast, aged 5 years and 5 months.

SPRINGFIELD MUTUAL HEALTH INSURANCE COMPANY,

SPRINGFIELD, MASS.

GEO. H. NORMAN, Agent.

THIS institution is conducted on the mutual principle, so far as to admit the parties insured to an equal participation in the profits of the company.

It insures to male and female persons between the ages of fifteen and sixty years, a *weekly* income at the rate of 100 per cent, upon amounts *annually* deposited; in case of disqualification for business by reason of sickness or accident. For instance, a person paying $5 a year, insures to himself $5 (or 100 per cent.) for every week's illness within that year. These benefits are independent of whatever dividends may annually accrue to the insured.

The rates of annual payments by the members are as follows:

$2 00	per Annum,	draws	$2 00	per week,			
3 00	"	"	"	3 00	"	"	
4 00	"	"	"	4 00	"	"	
5 00	"	"	"	5 00	"	"

7 00	"	"	"	7 00	"	"	
8 00	"	"	"	8 00	"	"	

Persons desirous of providing against protracted sickness, and who will except the first week, will be taken 25 per cent less, viz:

$1 50	per Annum,	draws		$2 00
2 25	"	"	"	3 00

5 25	"	"	"	7 00
6 00	"	"	"	8 00

The main design of this company is to enable prudent and discreet persons of small means, to make provision while in health, by a trifling outlay, against the aggravated sufferings that inevitably invade a sick bed, in reason of pecuniary privation and of inability to labor. A vast amount of human wretchedness has been prevented or mitigated, within the present generation, by the establishment, in Europe, of similar provident institutions: and within a short period, this system of Health Insurance has been introduced into our own country, with results, thus far, equally beneficial to all whose relief it contemplates—more especially to those who toil daily for their daily bread, and to whom any interruption by sickness becomes a serious and distressing calamity.

By this system, also, one person may insure the health of another—a parent that of a child, or a child that of a parent—an employer that of a workman, or of an apprentice, &c. Thus, those who are able, by a small immediate investment, may relieve themselves from the hazard of incurring heavy burthens, inflicted involuntarily by those who might otherwise become dependants upon them for continued care and support.

While the most humane and benevolent dispositions of mankind are subserved by every association of this description, its beneficiaries are exempted from being placed in the degraded condition of recipients of the bounty of others. For, by the contract into which they enter, they purchase and fairly earn all the benefits which they may demand, as a matter of just and legal right; and, if it so please Providence that they escape the affliction against which they have measurably provided, the satisfactory reflection is left, that the price of their own immunity has been applied to the comfort and succor of their less fortunate fellow beings.

It is presumed that no extended argument can be required to recommend the objects of this Company to public consideration. A perusal of the Rules and Regulations adopted by the Directors, which may be had at my office, will afford an ample insight into the principles of the Institution, and of its modes of operation.

M., and arrive at Newport same afternoon.

The Union Fire Engine Company, No. 3, and the Pioneer Fire Engine Company, No. 11, of Providence, will accompany the Excursion, and it is expected that they will, at the invitation of Mr. Barnum, visit his residence that evening, as above arranged.

This will be the pleasantest Excursion which has ever left Newport, embracing, as it does, a view of the coast for more than one hundred miles; the beautiful inland sea through Fisher's Island Sound, the famous port of Stonington, the unrivalled harbor of New London, the romantic and ever-beautiful city of Elms (New Haven,) and the Iranistan, at Bridgeport, which surpasses anything on this continent, and has won the fitting appellation of the "Oriental Palace of America."

Mr. Barnum has signified his pleasure to meet the Engine party, and will escort them around his premises. A cold dinner and refreshments will be served up on board the boat.

The American Brass Band, of Providence, will enliven the occasion during the whole Excursion, and also at Bridgeport Thursday evening.

Fare for the Excursion to New Haven and back $1,50; fare, including a ticket to and from Bridgeport by Railroad, as above noticed, $2,00.

LAWRENCE'S
DAGUERRIAN GALLERY.

South Touro street, opposite the Atlantic House.

The proprietor respectfully informs the inhabitants and Visitors of Newport, that he will remain at the above place until the 15 of September.

Those who may wish pictures of themselves or Copies of Portraits, Miniatures, &c &c. &c., will do well to call, as they will receive proper attention; their pictures taken with Artistic skill, and put up in the most chaste style, at prices to suite customers.

From the Brooklyn Advertiser.

FINE MINIATURES.

Visitors to the Crystal Palace are all amazed at the singular beauty and vividness of the Daguerreotypes from New York. And the best of these come from

LAWRENCE'S, 203 Broadway,

whose work is probably equal to any in the world, in that difficult art. Difficult, because so much depends upon light, time, attitude, and the taste and tact of the *operator*: for the perfection of all which requisites, Lawrence's place is well known.

The reception parlor at Lawrence's, is fitted up in the luxurious style of a Fifth avenue drawing room. Then up stairs you will find a real artist and a first-rate *Operator* who has a very "taking" way with him, and multiplies you by two, in a jiffy.

N. B. No Pictures taken at ONE DOLLAR, as competent operators cannot take competent pictures on *incompetent materials.*

JUDD'S MEDICATED LIQUID CUTICLE
Invented June, 1849 by
ORANGE JUDD, CHEMIST.

This recently invented compound is probably the best preparation yet discovered for dressing Burns, Scalds, Cuts, Bruises and all Kinds of Wounds. Also, for Sore Nipples a remedy unequalled. A very little of the Liquid placed anywhere upon the surface of the body, immediately forms a *smooth, firm* coating, very similar to the natural Cuticle, or outer skin, which may be freely washed with water or soap without the least injury to the wound. It is an admirable substitute for TRANSPARENT COURT PLASTER, without any of its inconveniences. It is so *medicated* as to allay pain immediately and most perfectly; for sale by H. H. YOUNG.

MEDICINES FOR THE PEOPLE!
DR. S. A. WEAVER'S
CANKER AND SALT RHEUM SYRUP,
CANKER CURE AND CERATE.

THESE preparations are scientific productions of a regularly educated physician (who is now extensively engaged in the practice of his profession.) They have become deservedly popular in all sections of the country, where they have been introduced, from the fact that they have never failed to affect a cure where they have been used according to direction.

THE CANKER AND SALT RHEUM SYRUP is an article differing entirely from Sarsaparilla or Dock Syrups, or any other preparation ever offered to the public. It can be positively relied on for the effectual cure of all Scrofulous Humors, Erysipelas, Salt Rheum, Canker in the Mouth, Stomach or Bowels, Female weaknesses, and all humors arising from an impure state of the blood. In a word it is a complete renovator, eradicating disease and restoring to healthy action every part of the system.

THE CERATE

In all cases of humors, and especially for Salt Rheum and Erysipelas, is a valuable accompaniment to the Syrup, as it will effectually destroy every vestige of Humor from the surface of the body which will be driven out by the use of the Syrup. It is one of the most valuable external applications ever known for Burns, Scalds, Scald Head, Old Sores, Piles, Barbers Itch, and all other eruptions on the skin. And far surpasses all other external applications.

THE CANKER CURE

Is the desideratum so long sought for the relief and cure of certain diseases which all other preparations have failed to relieve. It is warranted a positive cure for Nursing Sore Mouths, in these cases it has never failed. Thousands have tried it, and been cured; also, for Canker in the Mouth, Stomach and Bowels, and obstinate dysentery it has effected cures after all other tried remedies had failed. For Ulcers and all diseases proceeding from cankerous humors in the system this is useful and is a valuable accompaniment to the Syrup in all cases of Canker.

Neither of the above articles are genuine without the signature of S. A. WEAVER & Co., on the outside wrapper.

Manufactured at New London, Conn., by S. A. WEAVER & Co., sole proprietors, to whom all orders must be addressed.

MATALLIC BURIAL CASES.

The subscriber has purchased the right to sell the Patent Metallic Burial Cases for the Island of Rhode Island; and he has just recieved a fine supply of the different sizes and patterns. These Cases will not preserve remains for all future time without some decay; but we do assert that remains can be kept in them for weeks without decomposition being observable, or without any offensive odor escaping. In grounds which are wet, they will be found doubly useful, and will answer all the purposes of vaults—which are so often made to shut out the water. If it is necessary at any time, even fifty years after interment, to remove remains, it can be done without any difficulty—for the Cases themselves will last as long as time itself.

DOCT. F. GOURARD,

Medical Doctor, a graduate of the Academy of Medicine and Surgery of Paris, France,

SURGEON OCCULIST, DENTIST,

AND PROFESSOR OF CHEMISTRY:

has the honor to apprise the Ladies and Gentlemen of Newport and vicinity; and, in general his old acquaintances and former patients, for this sixteen years past; that he has begun anew his former practice of Medicine and Surgery, at his Dwelling, No. 19 Bridge Street; where he offers his professional services to them, as a Surgeon Dentist and Oculist: his long experience and reasonable warranties, given to those who place confidence in his skill, dexterity and performances in giving general satisfaction, will have the merit to assure an enlightened public that their patronage will not be met with, under regard to their trust, either for themselves or their children in regulating the defects of their teeth in the different operations performed in the art of Dentistry upon them.

As a Surgeon Oculist, in the varieties of diseases either chronics, inflammatories or accidentals, which afflict the Eyes and the Sight, either in young subjects or older ones: the Doctor during his late sojourn in the city of Paris, has by deep scientific and laborious studies, rendered himself eminently acquainted with them, principally with those concerning the operations performed on **STRABICS SUBJECTS**, or Squint Eyed.

This delicate operation which gives immediate relief to an awkward and disagreeable deformity of nature, performed by a skilful operator, is reduced to about 30 seconds, or, to the farthest, to one minute's anxiety; and, no other hurt or sensation than the feeling of a mite of sand, entering under the Eyelids, or the prick of a fine cambric linen needle, introduced in the flesh; as an evidence, the only sight or inspection of the instruments used in performing the operation, will be all sufficient to induce a Strabic, without any hesitation to desire the immediate performance of the operation.

It is necessary here to state, that in 1841, the Doctor was the First practitioner who introduced and performed the operation of strabismi, in the city of New York, upon 24 Strabics subjects, with an indisputable success, after having operated upon upwards of 300 in France.

Professor Alexander C. Barry's

Tricopherous, or Medicated Compound, for restoring, preserving, and beautifying hair, eradicating scurf and dandruff, and curing diseases of the skin, glands and muscles, stings, cuts, bruises, sprains, &c.,—In order to convince the public of the efficacy of any curative preparation, in this thinking and reflective age, it is necessary to explain the philosophy of its operation. The process by which Professor Barry's Tricopherous produces such extraordinary results, cannot be understood, without a brief notice of the structure and uses of the delicate substances to which it is applied, and in the condition of which it accomplishes the most salutary changes. The connection between the hair and the skin is so close, that the one may almost be deemed a continuation of the other; and hence whatever renovates, restores, and nourishes the hair, must of necessity have a healthful influence upon the sensitive membrane in which its roots are fixed. The skin, that wonderful envelope, in which the sense of touch resides, consists of three layers; the epidermis, or cuticle, a semi-opaque, or almost insensible film; the rete mucosum, which is a spongy membrane, reticulated with nerves and blood vessels, and forms a sort of shield to the exquisitely sensitive true skin; and the true skin itself, which constitutes the third layer of the triple envelope. In this tough, flexible, and elastic integument, are located the nerves, blood-vessels, &c., which supply sustenance to the hair, and in the derangement of which diseases of the skin originate. The vessels of the true skin supply the sacs containing the roots of the hair with the moisture which sustains the fibres, and the same causes which affect the health of the hair, also affect the health of the skin. It acts through the skin upon the hair, stimulating the inert vessels, opening the pores, imparting activity to the circulation, awakening from their lethargy all the vegetative functions which give life, vigor, and beauty to the fibres, extirpating every particle of scurf and dandruff, and soon clothing even the bald or half denuded head with a thick, glossy, silky, and elastic covering. But this is only one of the uses of Professor Barry's Tricopherous. The same properties which restore vital and vegetative power to the skin of the head, are equally beneficial in all cutaneous diseases or superficial injuries. For cuts, burns, bites of insects, sprains, erysipelas, blotches, pimples, scabies, ringworm, rashes, scrofula, prickly heat, chilblains, chapped hands, rheumatism, burns, scalds, bruises, redness of the skin, and in short, all the troublesome and painful external diseases and injuries which are so common in families, and which nothing but external remedies can remove, the Tricopherous will be found a speedy, safe and unfailing cure. By virtue of its double claim as a renovator and beautifier of nature's choicest ornament, and a potent and invaluable remedial agent, it is entitled to a place on every toilet and in every medicine chest. Sold in large bottles, price 25 cents, at the principal office, 137 Broadway, N. Y., and by the principal merchants and druggists throughout the United States and R. J. TAYLOR, Newport, and J. BALCH & SON Providence. may1.

PHALON'S CHEMICAL HAIR INVIGORATOR.

THE continued progressive increase in the sale of this unrivalled article for renewing, beautifying and perpetuating the growth of the hair, is a proof the common sense and experience of a sagacious public will ensure the triumph of a genuine preparation, which sustains by its results the inventor's guarantee over all spurious nostrums, however they may be bolstered by fulsome puffs, or propped up by manufactured statements.—Where the hair has fallen off, it will, in all cases where the vitality of the roots has not been destroyed, produce a full growth of fibres, as elastic and glossy as those with which the denuded scalp was originally clothed. Where the hair is loosening, and thinning, it will relix the yielding roots and restore the growth on the spots which have become bald. If the hair is harsh and dry, the Chemical Invigorator will render it soft, flexible, and lustrous; for it penetrates to the sacks in which the roots of the hair terminate, and is thence conveyed through each tubular fibre, lubricating the dry substance, and imparting vigor, beauty, and vegetative power to the whole mass of filaments. In cases where the head has become bald, or partially so, by disease, whether local or general, the Chemical Hair Invigorator will infallibly reproduce the lost covering of the scalp in its original profusion and beauty. It has the property of darkening the hair, as well as promoting its growth, elasticity and lustre. The lady or gentleman who uses it regularly, according to the directions, need not fear that age will bring, so far as they are concerned, its usual concomitants, grey hairs—not, at least, until years after the period when they ordinary make their appearance. In short—by [illegible] by both sexes and all classes—Phalon's Chemical Hair Invigorator will be [illegible] not only the very best, but the only preparation by which the hair can be preserved in all its natural luxuriance, and endowed with all the additional beauty and perfection which it is the province of art to bestow.

HAIR DYING.

Phalon's Magic Hair Dye, to color the hair or whiskers the moment it is applied without injury to the hair or skin. It can be washed immediately without disturbing the color, and has no bad odor. It is applied, or sold at GORTON ANDERSON'S Barbering and Hair Cutting Emporium, 103 Thames Street. june1. 1y

BLISS' JENNY LIND HOT AIR COOKING RANGE.

IN presenting this Range to the public, the subscriber would call attention to its merits. He has been well convinced from his own observations that the public are in want of a Range with such improvements as will render it more perfect for all purposes of domestic utility and economy, than any now in the market. In the article which he now offers to the public for examination, he has (if he can place any reliance upon the assurance of experienced dealers in Ranges and Stoves, his customers and his own experience and observations) been successfully beyond his most sanguine expectations. The Oven is so constructed as to secure the certainty of thorough baking the bottom of all articles proper to be cooked in an oven. It is unnecessary to say to those who have used ranges, that no previous pattern has been free from defect in this particular.

All parts of this Range is double the usual thickness.

It has been pronounced by competent judges, the most beautiful and perfect in its appearance, of any Cooking Range of this country, with some advantages over many ranges that are made. I would call your attention

1st, To its general beauty and great strength of castings. Also, the quality of iron and the care and skill with which they are mounted. Also, notice the top which is so constructed as to prevent the least possible chance of breaking or burning out.

2d, The form of the fire chamber—a cylinder lined with soap-stone, or fire-brick, and known to be the best form of fire chamber in which to burn coal.

3d, Notice the front of the range closes tight, with a register in the ash-door, to give draft, which when closed makes the range perfectly air tight. Also, a new arrangement for dropping the grate from the outside, so that no dust can escape in the room.

4th, The simplicity of the arrangement; it having but one Damper, which manages the whole. Also, the convenience for cleaning the flues, and a convenient place to put the coal scuttle and a very large oven, of capacity enough to take twelve pies. Also, a bath boiler, which can be heated by a side or back flue or a water back, and a new and improved hot-air fixture which will heat a room from 12 to fifteen feet square, with the same fire that is used in cooking. There are five sizes of these Ranges, all of them can be set with double ovens either No. 1, 2, 3 or 4, at the option of the purchaser.

LIFE ASSURANCE.

ÆTNA INSURANCE CO., HARTFORD CONN. ANNUITY FUND, $150,000.

Safety—Stability—Economy.

THIS long established and well known company having organized a new department for life assurance, with an entirely distinct capital exclusively pledged with its reserved accumulations for the payment of losses upon life assurance only, is prepared to issue policies on lives at rates materially reduced from those charged by the mutual companies, and as low as is consistent with ultimate safety. The system adopted by this company is to ascertain precisely what it is worth to insure a certain amount upon a life, and to charge precisely that sum and no more; and not to require a larger premium than is actually requisite for the purpose, with the promise of returning, under the delusive name of profits or dividends, the excess of premium which ought never to have been taken. It is attended with none of those vexatious contingencies which are inseparable from the mutual system; it is perfectly simple as well as uniform and equal in all its operations.

Policies will be granted in the usual form, payable after death, or upon the party's arriving at the age of 40, 45, 50, 55, or 60, at his option: in either case free from the claims of creditors. The usual extra risks will be assumed by the company at reasonable rates.

SMITH'S RENOVATING OINTMENT AND HORSE RENOVATING POWDERS.—The author of our existence has caused to grow spontaneously, throughout the world, such vegetable properties as will at once cure, when properly applied, all curable diseases. DALLEY'S MAGICAL PAIN EXTRACTOR.

The Original and only genuine—in a new envelope and much enlarged boxes.

THIS only never failing and sovereign remedy for burns, scalds, piles, salt rheum, cuts, wounds, bruises, chilblains, swellings, old inveterate sores, inflammatory rheumatism, sore and inflamed eyes, and all cutaneous and inflammatory diseases, is extensively counterfeited in the old wrapper!! Avoid it as you would poison—for, to use it, is as dangerous!

I refer to my printed Pamphlets for testimonials of cures performed, and for the truth of every word of which I hold myself responsible. Were I to embody all the testimonials I have received, it would fill a quarto volume of 1000 pages.

A CHALLENGE TO THE WORLD!

I will forfeit $10,000! to be paid to any charitable institution, or institutions, if ANY or ALL other articles that flood the market, as Salves, Liquids, or so called Exterminators, Extractors, Killers, (an appropriate name for some,) can perform such a cure, in all its particulars, as is related in my circulars, as the

HAGUE STREET EXPLOSION CASE!"

And I will pay to any party $1,000 if he can prove that there is any thing in that statement not STRICTLY TRUE! I deem it useless to say more in reference to the

GENUINE DALLEY SALVE!

CAUTION!

Avoid fraud, and you gain near 50 per cent.—Shun the poisonous counterfeits in the old wrapper, and buy Dalley's Extractor only in the new envelope and the large boxes.

MARK—The emblems on the new wrapper—Triangle, Serpent, Sun, Dove, Lion and Eagle.

MIND—The new wrapper—the large boxes—and the genuine article.

THE TEST.

DALLEY'S GENUINE SALVE, if applied in any case of Burns, Scalds, or Inflammation, will afford almost instantaneous relief! It cools when applied, checks all inflammation instantly, and quickly reduces it. Its effects are so soothing, that in cases of the severest burns and scalds, [*See Hague Street Explosion Case,*] and where the sufferer is in the most excruciating pain, it will entirely ease him in a few minutes, so that in about a quarter of an hour from its application, he will enjoy sleep and repose.

The Counterfeit Salves irritate when applied, and increase the pain and inflammation.

DALLEY'S ANIMAL GALVANIC, a certain, quick, and never failing remedy for the cure of poll evil, sores, bruises, strains, galls, &c. See the new printed Circulars.
